8	Garbage collection is as per the whims and fancies of contractors. This needs to be streamlined and regularized. Contractors should be penalized for non-collection of garbage on the roads/street side and layouts. Commercial establishments dumping garbage in empty plots and roads should be fined and bought to books.	27. Regular garbage collection is promised with sign based checking.	Hon.Corporator	ASAP
		28. Community will get a phone number to escalate all complaints. Few members from community will be POC for this.	KDF	On Going
		29. Fine commercials who are dumping garbage at layout entrances	Health Inspector Hon.Corporator	ASAP
9	Road infrastructure for many layouts like KPC Layout, Tulasi Layout, CSB Layouts, layouts around Norbert Church is non-existent today. They are destroyed either due to GAIL gas pipeline laying or BWSSB Cauvery pipelines and in some cases just ignored with no road infrastructure. This has to be addressed on priority. Many layouts also dont have Streetlights which is an issue	30. Few areas like St.Norbert church road, Amrutha college and Tulasi Layout work is already considered to start ASAP.	Hon Corporator	ASAP
		31. KPC Layout, CSB Layout, Tulasi layout and many other area works will be pending which needs to be expedited. Timeline needs to be confirmed.
